

PROVIDING A SHIELD OF PROTECTION IN AN UNSAFE WORLD.

Rodnie Williams, CPP
Founder and CEO
360° Stay Safe

Rodnie Williams started his career in safety and security during his four years of college as a student public safety officer. Today, Rodnie is a seasoned, strategic leader working with schools and corporate clients in the areas of security system technology and integrated risk management.

Rodnie has held security management positions with several Fortune 500 companies, dealing directly with threats of violence, executive protection, crisis management and response, security risk assessment and workplace violence prevention. He is a Certified Protection Professional (CPP) with the American Society for Industrial Security.

Rodnie has developed and delivered self-defense and personal safety training programs throughout the United States. Rodnie and his wife are the parents of four children, all of whom they want to see grow up in a safer world.

Dr. John Buri
Psychology Professor
University of St. Thomas

John Buri brings more than 30 years of experience and knowledge to the 360° Stay Safe team. A professor of psychology at the University of St. Thomas in St. Paul, Minn., John holds his doctorate in cognitive psychology and is an expert on relationship dynamics, as well as topics pertaining to date rape, stalking, campus dating and relationship safety issues.

John is a popular speaker with young adults on successful dating experiences. John's courses include "The Psychology of Marriage and the Family" and "Early Warning Signs of Controlling Behavior." He has published one book and more than 50 research articles and papers.

John is married to his wife of 36 years and the father of six children.
