- Bystander Intervention

## Program Details

### Quality

Our VAWA Compliance and Building Community programs consist of high quality vignettes and speakers who are knowledgeable and can easily relate to the target audience.

### Hosting

Our training programs can be hosted by the institution internally or by 360° Stay Safe. Each institution can choose the option that best suits their needs.

### Time to Complete

The VAWA Compliance program for students takes 45 minutes to complete; employee and non-traditional student compliance takes 25 minutes to complete.

### Relevance

More than 90% of the program's content is applicable to all college campuses, including residential and commuter campuses.

### Assessment

Our programs provide opportunities for assessment by posing quiz questions at the end of each module to assess the learner's comprehension of the subject matter. The learners must correctly answer the questions prior to moving on in the system.

### Pricing

The pricing structure depends on various factors, including the program chosen, the preferred hosting option, the number of users, etc. Current customers, IACLEA (iaclea.org) and NACCOP (naccop.org) members, and D. Stafford & Associates customers receive discounts on the package.

Enhance your campus training with our

# Building Community Supplements

## Discrimination & Personal Safety Modules

Our Building Community supplement includes discrimination and personal safety modules—teaching students, faculty and staff about creating a safe and healthy campus community where they take care of themselves, look out for one another, and make choices to enhance their safety and the safety of others. The Building Community supplement takes an additional 45 minutes to complete.

### Topics Included:

- Race & Classism
- Sexual Orientation & Gender Identity
- Religious Discrimination
- Everyday Safety
- Protecting Possessions/Identity
- Common Sense Defense/Active Shooter

## Alcohol & Drug Awareness Module

Alcohol abuse and illicit drug use are issues to be discussed at any institution of higher education. The information presented in this module is not only helpful for students & employees, but also imperative for them to know in order to provide resources, help someone in need, and be responsible for themselves, those around them and their community.

- Developed with customer input and subject-matter expertise
- Aimed at multiple audiences (incoming first year, non-traditional, graduate student, or employees)
- Practical information presented in a positive way with consideration of the Drug-Free Schools & Communities Act

## Vetted for Compliance

360° Stay Safe has developed a Corporate Partnership with D. Stafford & Associates, a professional consulting firm specializing in Clery Act and Title IX compliance and led by Dolores Stafford, who is nationally recognized as one of the premier leaders in the field.

D. Stafford & Associates Clery and Title IX Team members have worked closely with 360° Stay Safe to ensure the requirements of the Clery Act (including VAWA) were met in the training modules.

## About 360° Stay Safe

360° Stay Safe provides holistic and community-based prevention/awareness training for higher education students and employees. The company's training programs are being used across North America, Canada, and the Caribbean to equip students and employees with relevant, practical, and effective skills for building safe and healthy campus communities. The company's vision is simple — to help people live safer lives.
